GlobalChem Conference Agenda

Monday, February 25, 2013

REGISTRATION & INFORMATION DESK OPEN
7:00 am – 6:00 pm

GLOBALCHEM KICK-OFF & WELCOME RECEPTION
5:30 pm – 7:00 pm
(Woodrow Wilson Ballroom)

Tuesday, February 26, 2013

REGISTRATION & INFORMATION DESK OPEN
7:00 am – 6:00 pm

Day One Opening Remarks
8:00 am – 9:00 am
(Cherry Blossom Ballroom)

Welcome: Cal Dooley, President & CEO, American Chemistry Council
Keynote Speaker: Joe Schwartz, Director, McGill University Office for Science & Society

Opening Plenary Session - “All Things TSCA”
9:00 am – 11:15 am
(Cherry Blossom Ballroom)

What is the state of play on key TSCA regulatory issues and on chances for TSCA reform legislation in the new Congress? Hear the latest on legislative developments as well as EPA's regulatory update on its Existing Chemicals Program for 2013 including the TSCA Work Plan Chemicals. After that there will be an industry discussion on EPA TSCA Policies including Significant New Use Regulations (SNURS) and their policy implications for chemicals in articles.

TSCA Modernization Legislative Update
9:00 am – 9:30 am

Speakers: Terry Medley, Global Director, Corporate Regulatory Affairs and Advocacy, DuPont; Beth Bosley, President, Boron Specialties; and Julie Froelicher, NA Regulatory & Technical Relations Manager, Global Product Stewardship, Procter & Gamble, Chemicals Division
Moderator: Sarah Brozena, Senior Director, Regulatory & Technical Affairs, ACC

TSCA Existing Chemicals Program
9:30 am – 10:15 am

Speakers: Jim Jones, Acting Administrator, EPA Office of Chemical Safety and Pollution Preventions and Wendy Cleland-Hamnett, Director, EPA Office of Pollution Prevention and Toxics
Moderator: Sarah Brozena, Senior Director, Regulatory & Technical Affairs, ACC

BREAK
10:15 am – 10:45 am
(Woodrow Wilson Ballroom)
TSCA Existing Chemicals Program (Cont’d) 10:45 am – 11:15 am

• Industry Perspective on EPA TSCA Policies – SNURs

Speaker: Mark Duvall, Principal, Beveridge & Diamond

General Session - Improving Chemical Assessments in the IRIS Program 11:15 am – 12:15 pm
(Cherry Blossom Ballroom)

EPA’s Integrated Risk Information System (IRIS) plays an important role in providing Agency program offices and external stakeholders with health-based toxicity values used in developing risk assessments for regulatory purposes. This session will discuss the progress that EPA has made to improve quality and reliability of the IRIS program as well as the plans for future improvements. External stakeholders will address the impact of these changes as well as the challenges that still exist.

Speakers: Kimberly Wise, Ph.D., Senior Director, Chemical Products & Technology Division, ACC and George Gray, Ph.D., Director of the Center for Risk Science and Public Health, The George Washington University

Moderator: Nancy Beck, Senior Director, Regulatory Science Policy, ACC

LUNCH 12:15 pm – 1:30 pm
(Woodrow Wilson Ballroom)

Breakout Session One (Choose one of the following sessions) 1:30 pm – 2:45 pm

TSCA Enforcement (Cherry Blossom Ballroom)

This session will include a discussion of recent EPA TSCA Enforcement actions including: Inventory Update Rule Reporting/Chemical Data Reporting (IUR/CDR); Pre-Manufacturing Notice (PMN) violations; expedited settlement through the use of 40 CFR Part 22 quick resolution process; the Agency position of the recapture of the economic benefit of noncompliance, and the status of the Audit Policy and potential implications for voluntary disclosure. This session will NOT be repeated.

Speakers: Rosemarie Kelley, Director, Waste and Chemical Enforcement Division, Office of Civil Enforcement, OECA, EPA and Sarah Beth Watson, Counsel, Steptoe & Johnson LLP

Moderator: Judah Prero, Assistant General Counsel, ACC

Canada’s Chemical Management Plan Update (Annapolis 1&2)

This session will look at the next phase of the Chemicals Management Plan (CMP), information requirements for the Domestic Substances List Inventory Updates (DSL IU), and obligations to submit a notification for a New Substance to Canada or a substance subject to a Significant New Activity (SNAc) under the New Substances Notification Regulations (Chemicals and Polymers). Also, Canada and the U.S. recently finalized the Nanotechnology Work Plan for the Regulatory Cooperation Council’s Joint Action Plan proposal to share information and develop joint regulatory approaches for nanomaterials. This session will be repeated.

Speakers: Dan Bastien, Head, Client Services and Daren Kelland, Manager, Information Management and Data Collection Services, Program Development and Engagement Division, Environment Canada; and Jeff Morris, Deputy Director for Programs, OPPT, EPA

Moderator: Tucker Helmes, Senior Director, SOCMA

Alternatives Assessment and Product Development: A State, Federal, and Industry Perspective (Annapolis 3&4)

A handful of state governments, federal programs, and business-to-business initiatives are engaging in alternatives assessment. Regulations like California’s Safer Consumer Products rule will require alternatives assessments for consumer products deemed to be “Priority Products.” Other state rules, such as Maine’s Regulation of Chemical Use in Children’s Products, and Washington State’s Children’s Safe Product Act Reporting Rule, do not require an alternatives assessment by default but have the ability to necessitate an assessment (as is the case with Maine), or will likely use the reported data on chemicals used in children’s products to encourage assessments of safer alternatives. At the federal level, the U.S. EPA’s Design for the Environment program tackles alternatives assessment and the development of safer formulated products. This session will be repeated.

Speakers: Janet Martinez, Chemical Regulatory Manager, Amyris Inc.; Alex Stone, Senior Chemist, Safer Chemical Alternatives, WA Dept. of Ecology; Clive Davies, Chief, Design for the Environment, EETD/OPPT, EPA; and Catherine Barton, Senior Consulting Engineer, DuPont

Moderator: Emily Tipaldo, Manager, Regulatory & Technical Affairs, ACC

BREAK 2:45 pm – 3:00 pm
(Woodrow Wilson Ballroom)
Breakout Session Two (Choose one of the following sessions) 3:00 pm – 4:15 pm

**Understanding EPA’s Endocrine Disruptor Screening Program**
(Cherry Blossom Ballroom)

In 2013, EPA will be engaged in the evaluation of the Endocrine Disruptor Screening Program (EDSP) Tier 1 screening data for pesticide chemicals (List 1), applying weight of evidence criteria to determine Tier 2 testing and moving forward with advanced high-throughput methods (EDSP21). EPA is also poised to move forward with expanding the EDSP to chemicals found in sources of drinking water (List 2). This session will discuss challenges faced in conducting assays and submitting data to the Agency. The session will also provide updates on current EDSP elements and activities including the Agency’s EDSP Management Plan, plans for issuing test orders for List 2 substances and progress made in building scientific confidence in EDSP21 methods. In addition, the allegations of low dose and non-monotonic dose response will be discussed. **This session will NOT be repeated.**

*Speakers:* Paul Lewis, Ph.D., Chief, Chemical Information and Testing Branch, Chemical Control Division, OPPT, EPA and Lisa Ortego, Principal Scientist, Bayer Corporation

*Moderator:* Rick Becker, Senior Director, Regulatory & Technical Affairs, ACC

Beyond Compliance: Industry’s Commitment to Continuous Improvement in Product Stewardship
(Annapolis 1&2)

The chemical industry is committed to the safe, responsible and sustainable management of chemicals for their intended use and throughout their entire life cycle. In this session you will hear the latest on ACC’s Responsible Care® and SOCMA’s ChemStewards® continuous improvement programs for the chemical industry. ACC, in conjunction with the 25th Anniversary of Responsible Care in the U.S., plans to launch enhancements to its program in 2013, including: creating a new Product Safety Code of Management Practices; and promoting an enhanced focus on Process Safety. These enhancements “go live” in 2014. Also, get the latest on SOCMA’s ChemStewards program, established in 2005 to meet the unique needs of the batch, custom and specialty chemical industry. **This session will be repeated.**

*Speakers:* Debra Phillips, Managing Director, Responsible Care, ACC; Susan Eastridge, Responsible Care Director – Industrial Hygiene & Product Stewardship, Solvay North America; and Dr. J. Holland Jordan, Director, ChemStewards, SOCMA; and Kirstin Dolan, Senior Project Director, WSP Environment & Energy

Alternatives Assessment and Product Development: A State, Federal, and Industry Perspective
(Annapolis 3&4)

This is a repeat session. See previous description.

**BREAK**
(Woodrow Wilson Ballroom)

Breakout Session Three (Choose one of the following sessions) 4:30 pm – 5:45 pm

**OECD Chemical Screening and Review**
(Cherry Blossom Ballroom)

This session will update you on many areas of work underway in the OECD Environmental Health & Safety Program concerning the assessment of chemical hazard and exposure. The expert panel will provide updates on the Cooperative Chemicals Assessment (CoCaM) program and tools such as OECD's QSAR Toolbox and eChemPortal, as well as revision to OECD’s chemical category guidance and the development of Adverse Outcome Pathways for use in chemical screening. This session will also cover the multiple work streams under the Working Party on Manufactured Nanomaterials. **This session will NOT be repeated.**

*Speakers:* Bob Diderich, Head of Division, ENV/EHS, Organisation for Economic Co-operation and Development; and Grace Tier Patlewicz, DuPont

*Moderator:* Jay West, Senior Director, Chemical Products & Technology Division, ACC

Beyond Compliance: Industry’s Commitment to Continuous Improvement in Product Stewardship
(Annapolis 1&2)

**This is a repeat session.** See previous description.

Canada’s Chemical Management Plan Update
(Annapolis 3&4)

**This is a repeat session.** See previous description.

**ADJOURN**

**EVENING RECEPTION**
(Pose Ultra Lounge)

Sponsored by
Wednesday, February 27, 2013

**REGISTRATION & INFORMATION DESK OPEN**  
7:00 am – 2:30 pm

**Day Two Opening Remarks**  
(Cherry Blossom Ballroom)  
8:00 am – 8:45 am

Welcome: Larry Sloan, President & CEO, Society of Chemical Manufacturers and Affiliates

Keynote Speaker: Geert Dancet, Executive Director, European Chemicals Agency

**BREAK**  
(Woodrow Wilson Ballroom)  
8:45 am – 9:00 am

**Breakout Session Four** (Choose one of the following sessions)  
9:00 am – 10:15 am

**Compliance Strategy for China New Chemicals, Registration of Hazardous Chemicals, and GHS Labeling**  
(Cherry Blossom Ballroom)

The Measures on Environmental Management of New Chemical Substances released by the Ministry of Environmental Protection (MEP) entered into force in October 2010. This session will take a more practical look at the new chemical notification process, including: how to arrange for a more effective testing strategy; what should be considered in cases where company HQ is located outside China; the comparison of testing costs, timelines, data collection; and how to protect confidential business information (CBI). In addition, the session will look at the obligations and timelines associated with the new China Globally Harmonized System (GHS) requirements to assist with compliance by providing practical instructions for China SDS and labeling preparation (e.g., 24/7 emergency response number; translation); as well as hazardous chemical registration under SAWS Order 53.

*This session will be repeated.*

Speakers: Jizong Fang, Regulatory Affairs Specialist, REACH 24H Consulting Group

**Import & Export Compliance**  
(Annapolis 1&2)

This session will cover the legal framework and restrictions on exporting chemicals and related products, insights into the thinking within the U.S. government about current issues, and practical guidance from industry on daily implications of compliance. Other topics include import compliance for the chemical industry and how to take advantage of free trade agreements.

*This session will NOT be repeated.*

Speakers: Alex Lopes, Director, Office of Nonproliferation and Treaty Compliance, Bureau of Industry & Security, U.S. Dept. of Commerce; Leon Hayward, Asst. Director of Trade & Cargo Security, Director of the Chemical Center for Excellence and Expertise, U.S. Customs and Border Protection; and Marianne Rowden, President & CEO, American Association of Exporters and Importers

Moderator: Corey Norton, Counsel, Keller & Heckman LLP

**Changes to Chemical Management Systems in the Asia-Pacific Region**  
(Annapolis 3&4)

Asia continues to be a moving regulatory target for global companies as different countries revise their existing chemical management systems (e.g., Korea REACH legislative proposal; Japan’s Priority Assessment Chemicals (PACs) under its revised Chemical Safety Control Law (CSCL); and Australia’s implementation of its Inventory Multi-tiered Assessment and Prioritization (IMAP)), as well as the emergence of new systems (e.g., India’s National Chemical Policy; Taiwan’s Existing Chemical Nomination and New Chemical Notification regulations; and Malaysia’s Environmentally Hazardous Substance Notification Registration Scheme). This session will update you on the latest developments and provide information on the ever-changing requirements.

*This session will be repeated.*

Speakers: Jeffrey Hafer, Product Sustainability Leader, Dow Coating Materials; Jonghee Koh, Deputy Director, Korea Ministry of Environment; and Mark Grenda, Director, Regulatory Affairs, Afton Chemical Corporation

**BREAK**  
(Woodrow Wilson Ballroom)  
10:15 am – 10:30 am
Breakout Session Five (Choose one of the following sessions)  
10:30 am – 11:45 am

Chemical Data Reporting (CDR) Lessons Learned/Planning for 2016  
(Cherry Blossom Ballroom)

The submission period for the 2012 CDR ended on August 13, 2012. The 2012 CDR revisions significantly expanded the requirements for reporting data on production volume, use, and exposure for many chemicals widely used in commerce. It also made electronic reporting mandatory. This session will take a look at some of the issues encountered and lessons learned both from a government and industry perspective on the 2012 CDR reporting period, including specific aspects related to the e-CDRweb electronic reporting tool. In addition, stakeholders will provide recommendations for improvement as companies begin to prepare to track annual production volumes in preparation for the 2016 CDR submission. **This session will be repeated.**

**Speakers:** Mary Marrero, NA Regulatory & Technical Relations Manager, Global Product Stewardship, The Procter & Gamble Company; Jay Gallik, Product Safety and Regulatory Affairs, LANXESS Corporation; Matthew Leopard, Director, Information Management Division, OPPT EPA; and Leslie Cronkhite, Chief, Existing Chemicals Branch, CCD/OPPT, EPA

**Moderator:** Imogene Treble, Product Regulatory Leader, Dow Chemical Company

International Chemicals Management and Sustainable Development: Next Steps Following Rio+20 and ICCM-3  
(Annapolis 1&2)

What does the future look like for chemicals management? At the third session of the International Conference on Chemicals Management (ICCM-3), the International Council of Chemical Associations (ICCA) called on all stakeholders to take action to strengthen the Strategic Approach to International Chemicals Management (SAICM), in order to improve and enhance the sound management of chemicals globally. Are we on track to meet the SAICM goal to ensure that chemicals are produced and used in ways that minimize significant adverse impacts on human health and the environment by 2020? What do outcomes from the United Nations Conference on Sustainable Development (Rio+20) mean for the chemical industry? **This session will NOT be repeated.**

**Speakers:** Norine Kennedy, Vice President, Energy and Environmental Affairs, US Council for International Business; Tracy Gerstle, Director, Public Policy, CropLife International; and Brian Doll, ExxonMobil

**Moderator:** Greg Skelton, Senior Director, Global Affairs, ACC

Changes to Chemical Management Systems in the Asia-Pacific Region  
(Annapolis 3&4)

This is a repeat session. See previous description.

**LUNCH** (Woodrow Wilson Ballroom)  
11:45 am – 1:00 pm

Breakout Session Six (Choose one of the following sessions)  
1:00 pm – 2:15 pm

Sustainability in the Downstream Marketplace  
(Cherry Blossom Ballroom)

By evaluating, standardizing and regulating the environmental and social impacts of products, private sector entities, such as standard-setting bodies, are increasingly moving into the retail and commercial marketplace. This can affect the value chain. This session will take a look at different supplier assessment scorecard schemes and engagement of the value chain in those discussions. **This session will NOT be repeated.**

**Speakers:** Brian Sansoni, Vice President, Sustainability Initiative, American Cleaning Institute; Carole Mars, Ph.D., Manager, Electronics, Toys and HPC, The Sustainability Consortium, Arizona State University; and Andy Hackman, Vice President, Government Affairs, Toy Industry Association

**Moderator:** Brooke Weizmann, Director of Sustainability, Responsible Care® & Value Chain Outreach, ACC

Chemical Data Reporting (CDR) Lessons Learned/Planning for 2016  
(Annapolis 1&2)

This is a repeat session. See previous description.

Compliance Strategy for China New Chemicals, Registration of Hazardous Chemicals, and GHS Labeling  
(Annapolis 3&4)

This is a repeat session. See previous description.

**BREAK** (Woodrow Wilson Ballroom)  
2:15 pm – 2:30 pm
Efforts to promote regulatory cooperation are a key feature of several current and potential international trade initiatives. Reducing or eliminating unnecessary non-tariff barriers to trade (NTBs) are an important means of increasing U.S. export competitiveness. For the chemical industry, NTBs are largely driven by inefficiencies in the regulatory process. Enhanced regulatory cooperation can help eliminate unnecessary burdens on regional cross-border trade, reduce costs, foster investment, and promote certainty for businesses and government. This session will focus on efforts to promote regulatory cooperation in forums such as the Trans-Pacific Economic Partnership (TPP) negotiations; the Asia-Pacific Economic Cooperation (APEC) Chemical Dialogue; and a potential US-EU Trade Agreement. Hear the latest on these developments and what they might mean for the chemical industry.

Speakers: Alex Hunt, Branch Chief, Office of Information and Regulatory Affairs, Office of Management and Budget; Minister Hiddo Houben, Head of Trade Section, Delegation of the EU to the U.S.; Sean Heather, Vice President, Center for Global Regulatory Cooperation, U.S. Chamber of Commerce; and John Shoaff, Chief, Liaison Branch, EAD/OPPT, EPA

Moderator: Mike Walls, Vice President, Regulatory & Technical Affairs, ACC

CONFERENCE ADJOURNS
