

New training course brought to you by Chemical Watch in partnership with Yordas Group (formerly The REACH Centre)

REACH compliance for downstream users

About the event:

This one day course is designed to meet the needs of any organisation which uses chemicals, providing them with the knowledge and techniques to allow them to fulfil their obligations under the REACH Regulation and to manage the potential impact of the Regulation on their business.

The course is geared mainly towards those who manufacture articles, and covers all roles and activities such companies may undertake, including:

- Sourcing (potentially importing) of raw materials, chemical mixtures, subcomponents
- Use of chemical mixtures in the manufacturing process
- Research and Development
- Sale and distribution of articles

Who should attend

Representatives from companies who manufacture goods or offer services where chemicals are not the main element of their business

- Including:
- Compliance officers/managers
- Product registration managers
- Regulatory Managers
- Toxicologists
- Risk Assessment Managers
- Lawyers

Case studies will be included where possible to illustrate the learning points.

This training course is organised in partnership with Yordas Group

Yordas Group – formerly The REACH Centre - is a leading provider of scientific, environmental, human health, and global regulatory consulting services. We have international capability with supporting offices and representation in North America, Asia and Europe, and commercial activities across 40 countries.

Delivering innovative solutions for business, industry and government, Yordas continues to create value and sustainability for our clients. The key sectors we serve include Consumer Goods, Manufacturing, Chemical, Agrochemical, Oil & Gas, and Mining. Crosscutting themes such as Product Stewardship, Chemical Notification Systems, Environmental Permitting, Globally Harmonised System, and Waste Management are within the broad portfolio of services we provide to our customers.

Expert Trainer:

Dr. Sandra Meijer

Director Product Stewardship, Yordas Group (formerly The REACH Centre)

Sandra is a recognised expert on chemicals management and product stewardship. Over the last 8 years, she has built up the Yordas Group's highly regarded Product Stewardship services package which includes the Chemtrac® suite of regulatory compliance tools for industry. Her work with Chemtrac has helped Yordas to deliver tailored compliance solutions for large companies in the automotive, aerospace, and retail industries. Sandra's extensive knowledge on how global chemicals regulations impact on supply chains ensures that she is uniquely placed to deliver bespoke REACH training for industry and to carry out regulatory compliance audits.
